Honeymoon:

Cabo San Lucas, Mexico

Mackenzie Wallace & Colton Turner

January 7th, 2017 • Victoria, TX • Engaged for 1 year & 3 months

Photos by Laraina Hase Photography & Jenna Bryant Photography

How we met:

We met while attending Texas State University in 2011. The baseball team had won conference champs and were celebrating at the apartment complex pool where I lived. That night we went to dinner and a movie and ended with a good night kiss... the rest is history!

The proposal:

We were packed, about to board a plane in 24 hours to Australia for four months (Colton plays professional baseball and was invited to play in an international winter league). Our families had prepared to send us off. To have everyone in town was nothing out of the ordinary. We had decided to go to dinner and on the drive there, his mother suggested we stop at the Fort Worth Botanical Gardens to take a nice family photo. We arrived, it was beautiful and in mid picture Colton turned to me and said "Do you know what would make this photo even better?" He got down on one knee and I was in complete shock. I hardly remember anything else!

Favorite detail:

Bride: I loved having all mixed metals, and interchanging table pieces. No table setting or arrangement could be too perfect. I also loved that we incorporated a feather here and there from the theme of my dress. However, the biggest detail that I as a bride along with a small tribe spent many hours pulling together was a very special table in the back corner of the room. There I had a sign that said "The Women Who Made Us..." and with it included all the wedding dresses in my family I could find: my mother's, both grandmother's, Colton's mother's and grandmother's. I did a photoshoot in each dress recognizing the style and era each held and had it pictured next to the corresponding wedding day photo of the women "back in the day" as well as their dress on a mannequin. I couldn't have been more proud for its huge impact on my special day. Some dresses could not be recovered or some loved ones had passed on, however were still remembered with their wedding day portraits as well. Groom: All my guys and good friends in attendance took a moment to have

a cigar on the back patio. The photos of this were awesome and I felt nothing but support to see such a big and great group of pals in my life (see pg 76).

Favorite moment:

Bride: EVERYTHING! I can't just pick one! That day, I was so high on life!
Groom: Seeing my bride in the most breathtaking gown.

Biggest challenge:

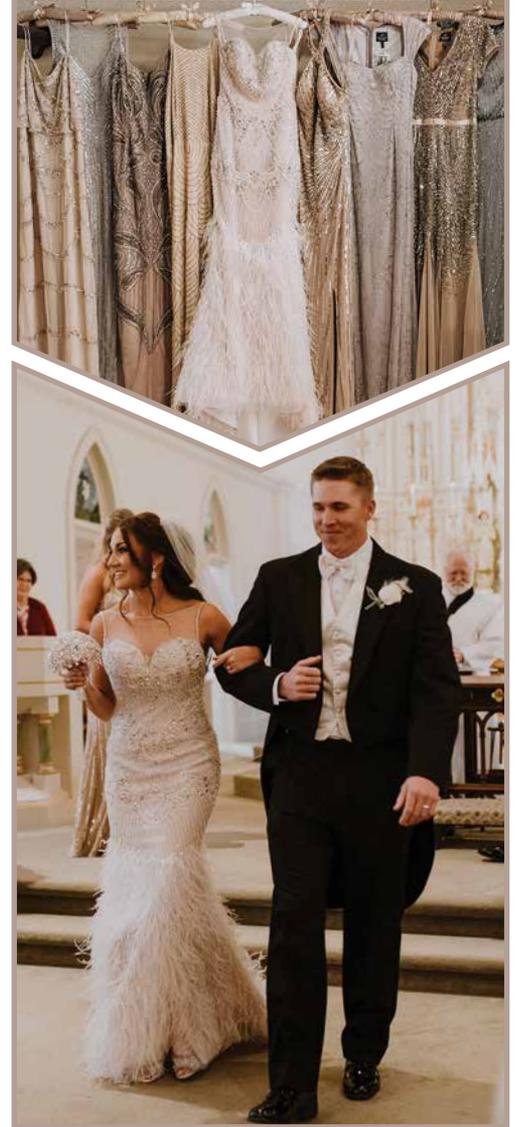

Bride: Getting everyone dressed, hair and makeup in time for a 2 o'clock wedding! Groom: I'd say I was pretty worried about everyone making it to town on time for the rehearsal because traffic in Houston was bad. Thankfully, everyone made it!

Funniest moment:

Bride: Finding the drunken love message written on our hotel bathroom mirror, with a bar of soap, from a few of Colton's buddies who decorated our honeymoon suite! WE LOVE YOU GUYSSS! Groom: Right before entering the reception, Mackenzie's dress had to be bustled... well, we couldn't find the "loop!!" It took our whole wedding party to figure it out!

How to make your spouse happy:

Bride: Feed him.
Groom: Pomeranians.
